

Meemli Summer Science 2020

Materials List For Experiments at Home

Please email us at contact@meemli.org if you have any questions!

- 1 head of Purple cabbage (grocery store)
- Large stockpot or high-speed blender
- Water
- 12 1-2 cups size clear jars or clear plastic cups
- 8- plastic pipettes small (Amazon) or medicine measuring cups or teaspoons
- 3- oyster shells (can get from a butcher in grocery story if you ask) or order shells online from Amazon.
- Salt (iodized or sea salt, cheap)
- White vinegar (about 3 cups)
- Strainer or cheesecloth or can just carefully pour off
- 2 to 4 cup containers to hold the purple cabbage juice, such as 2 cups or 4 cups large mason jars, or reusable container. (Note: Number of containers depends on the amount of cabbage juice you make)
- Paper towels
